

# ENTER THE COOL ZONE

## RTC2 Condenser for bus A/C applications

When it comes to choosing an air conditioning system for your bus fleet, quality, reliability and performance are critical. Bergstrom's new Cool Zone™ bus air conditioning system is a solution you can count on.

We have taken our industry expertise and engineered an OEM-quality air conditioning system for the bus market that will keep occupants comfortable and happy.

This condenser can be used with one system or combined with other Bergstrom systems to create various packages.

Before you decide what AC system is best for your fleet, enter the Cool Zone™ by Bergstrom.

### Kit Components

- Mounting Hardware
- Switches and Harness
- Fittings and Hoses

### Features

- Aluminum construction
- 2 sealed 15" axial fans produce 2000 CFM
- Micro channel condenser coil
- Zinc-nickel plated steel fittings with hose assembly
- Zinc-chromate plated steel hardware
- High pressure switch
- Serviceable filter drier
- Bergstrom engineered
- Refrigerant line routing and refrigerant charge determined via iterative testing to optimize system performance

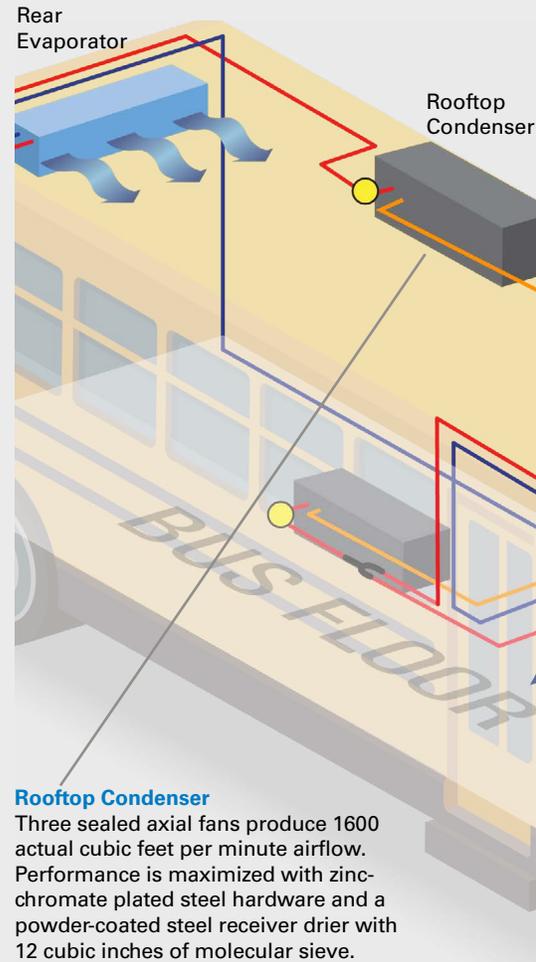

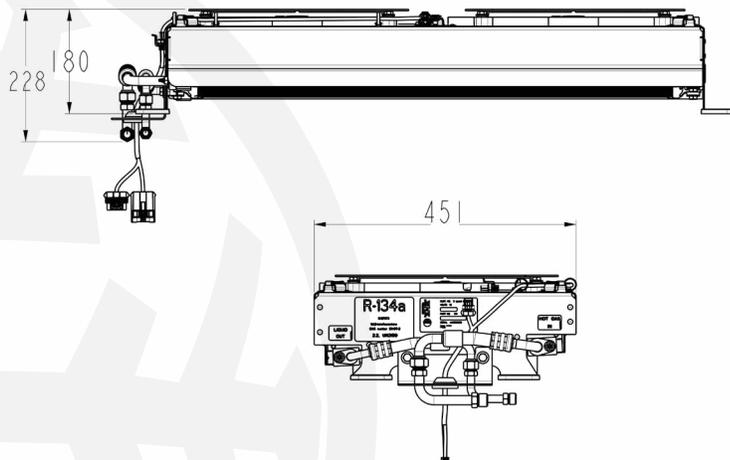

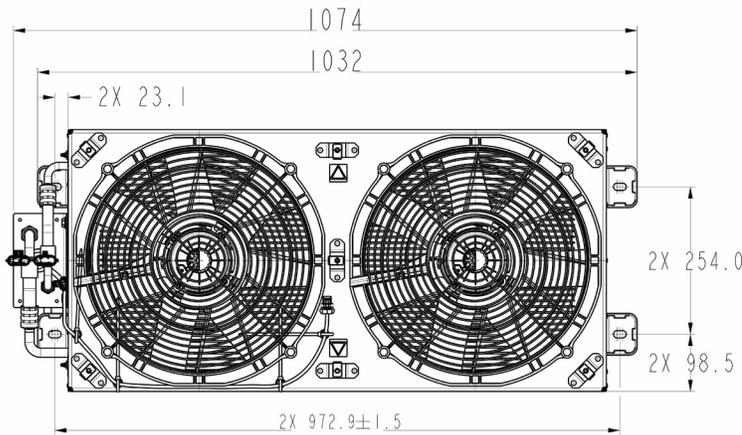

# RTC2 Condenser

## Technical Specifications

Model	Skirt Condenser
Voltage	12V
Power	83,000 BTU/hr (24,3 kW)
Amps	26.0 A/h
Maximum Air Flow	1,570 CFM (2,667 m <sup>3</sup> /hr)
Dimensions	42.28 in W x 8.98 in H x 17.76 in D (1074 mm W x 228 mm H x 451mm D)
Weight	44 lbs. (20 kg)
Mounting Position	Rooftop Mount

\*Actual system performance is dependent on installation, configuration and components used.

**Suggested Compressor: Sanden SD7 Enhanced or Seltic TM-21**

**Rooftop Condenser**  
Three sealed axial fans produce 1600 actual cubic feet per minute airflow. Performance is maximized with zinc-chromate plated steel hardware and a powder-coated steel receiver drier with 12 cubic inches of molecular sieve.

This photo represents a bus needing two condensers with multiple systems.

**Warranty**  
• 3-year unlimited mileage limited warranty
